QuikCalc Home Edition Benefits

[Click Here to Collapse](#)

[> Try the demo now!](#)

QuikCalc Home Edition is a fast, easy to learn, user-friendly tool that allows you to create amortization schedules, payment grids and more.

Need Amortization Schedules Fast? Quickly and easily create accurate amortization schedules that show you the principal and interest breakdown along with running totals of interest paid plus remaining balance. [View Screen Shot](#)

Missing a variable? If you need a quick answer for a missing variable, the Solve for Missing Number calculator will meet your needs. Solve for the payment amount, loan amount, interest rate or loan period at the click of a button, then with another click create a schedule based upon the data.

Need Payment Grids? Quickly create not just loan payment tables but five different grid configurations allow you to quickly see at a glance the impact of loan amounts, interest rates and payment amounts.

Detailed and summary reports are at your fingertips. Generate reports on demand that include annual summaries based upon any corporate year end. You choose the level of detail and the years between which the report will be generated. You can also specify custom header and footer text.

Detailed Reports

Detailed reports are available that will allow you to see on paper varying levels of detail on the loans, schedules or grids stored in the system. [More >>](#)

Just a few more of the key features:

•	Compatible with US & Canadian mortgages, U.S. Rule (Simple Interest) loans, car loans, business loans, debt-consolidation loans, student loans and more
•	Easy to use Amortization Schedules include principal and interest breakdowns with running totals of interest paid and principal remaining
•	Solve for missing number calculator allows you to enter your known values and solve for the payment amount, loan amount, interest rate or amortization period and then create a schedule based upon that information
•	Dynamic Payment Grids including five different grid configurations allowing you to solve for most missing variables
•	Detailed Reports including annual summaries. Allows you to specify a date range when printing
•	Save your grids and schedules for future use
•	Create schedules directly from the Solve for Missing Number calculator

[< Back to Features](#)

Fast, Accurate Amortization Schedules

Quickly and easily create accurate amortization schedules with QuikCalc Amortization.

•	Create and save any number of amortization schedules
•	Allows you to set the loan amount, interest rate, payment frequency (including accelerated payments) and interest compounding frequency
•	Includes principal/interest breakdowns along with running totals of interest paid and principal owing
•	Any payment frequency including monthly, bi-weekly and weekly
•	Allows you to print your schedule in 5 different formats and specify a date range for the years to print
•	Different compounding methods include U.S. Rule (Simple Interest) and Canadian mortgages
•	Specify a start date for the schedule or use generic time references
•	Before and After display shows the effect of the latest changes
•	Undo and Redo buttons allow you to go back and forth through your calculation changes
•	Five different report formats can be printed for different date ranges using specific from and to dates
•	Annual reports can be summarized based upon any fiscal year end showing interest and principal paid during the year
•	View Screen Shot

[< Back to Features](#)

Solve for Missing Number Calculator

The Solve for Missing Number calculator allows you to enter your known values and solve for the payment amount, loan amount, interest rate or amortization period. Simply enter what you know and click on the calculator icon beside the parameter you don't know and QuikCalc will immediately solve for the missing number. Once finished, you can create a schedule or loan using the calculated parameters with the click of a button. [View Screen Shot](#)

[< Back to Features](#)

Dynamic Payment Grids

The Payment Grids tool allows you to generate grids in five different configurations showing payment and loan amounts based upon various variables along the X and Y axis of the chart. For example, a payment grid with the loan amount on the left and the interest rate across the top. This tool replaces the old mortgage table books that are not flexible enough for today's wide array of loan types.

•	Change any parameter and instantly see the results.
•	Five different grid configurations allow you to solve for most missing parameters.
•	Print them out for when you go to the bank or meet with your real estate agent.
•	Open any number of these windows and compare side-by-side different payment frequencies, interest rates, compounding, periods and loan amounts.
•	View screen shot

[< Back to Features](#)

Detailed Reports

Detailed reports are available that will allow you to see on paper varying levels of detail on the schedules or grids stored in the system. With most, you can specify a year range to print allowing you to see schedules for a specific period. You can also save these reports in HTML format which can then be emailed or included in other products such as Microsoft Word and Excel. You can also specify custom header and footer text! Here are just some of the reports:

•	Amortization Schedule - Payments Only Report
•	Amortization Schedule - Payment Breakdown Report
•	Amortization Schedule - Annual Summary
•	Amortization Schedule - Annual Payment Summary
•	Amortization Schedule - Annual Payment Breakdown
•	Payment Grid
•	Plus more!

What's New in V6.0

[Click Here to Collapse](#)

[> Try the demo now!](#)

This latest version is the most significant facelift that QuikCalc has ever received and is receiving rave reviews from our customers.

- **New, improved interface!** Once click access to most features from the new XP style Navigation Bar. Redesigned for 1024 x 768 to maximize the usable space on your desktop (800 x 600 mode available from Edit menu). Larger easier to read font used throughout.
- **Easier to Use!** The new Navigation Bar makes accessing your favorite features much easier. As well, all date fields now have integrated calendars to make date selection much simpler.
- **User requested enhancements!** Enhancements requested by people like you including redesigned reports that use larger fonts where possible, escrow columns now only displayed on reports when necessary
- **Plus dozens of other enhancements requested by our users!**

Customer Reviews

[Click Here to Collapse](#)

[> Try the demo now!](#)

I just wanted to take a minute and thank you for the hands on support that your organization provided to Maaco. The application modifications that we requested were performed with a true willingness to give the customer exactly what they wanted. I believe that those enhancements will provide value to your other customers as well. The program application is currently being used to provide floor planning to three automotive dealerships. I would be very comfortable being a reference to Slateboard if ever the opportunity arose.

Thanks again,

Neil S. Cooper
Chief Financial Officer
Maaco Enterprises, Inc.

We use your software for our Housing Rehabilitation Program. The program involves Grants and low-interest Loans. Your QuikCalc Program is the software that we have chosen to track the financial portion of the program. It has all the tools we need, and is easy to use.

Slateboard excels at their commitment to their clients. I can't thank you enough for the excellent Customer Technical Support that your company provides. Your support staff has answered every question, walking through the application step-by-step. Many companies say they provide Customer Support but fall short of their promise. Slateboard sets the standard for Customer Service!

I highly recommend Slateboard Software.

Thanks ...

Kathleen Newcomer
Borough of Chambersburg
Housing Rehabilitation

"I wanted to let you folks know that the software is great since the changes you made to address my specific problems last year. I find that I use it for many different things, and it helps me greatly with my budgeting and investing decisions. I even found an error my bank made and had it corrected. Sincerely,"

Spring R., Indiana

"I looked all over the net and couldn't find anything that did what I needed until I found yours."

Nancy W., Bookkeeper, Indiana

"Used your software today and it is really easy to use and very helpful. Thanks!"

Leatha T., Arizona

"I appreciate the quick response."

Hugh H., British Columbia

"You guys rock!"

Shannon S., Minnesota

"Very helpful"

John E., New Zealand

"Thanks! You guys are awesome. I'm impressed with the support!"

Ed T., Texas

"Love the software."

John E., New Zealand

Monitor	1024 x 768 resolution or higher recommended (800 x 600 mode available from Edit menu)
Printer (optional)	Required to print reports but not to operate program. Any printer supported by Windows

FAQs

Please click below to find answers to these common questions about purchasing.

If you have additional questions, please contact Customer Service via email at sales@slateboard.com.

[How soon will I receive my software?](#)

[How long will it take to download?](#)

[Can I download again if I need to reinstall my software?](#)

[I have additional questions about downloading...](#)

[How do I update my data from a prior version of QuikCalc?](#)

[How do I get help or technical support?](#)

[Where can I find information about or purchase the Canadian version of QuikCalc?](#)

[Do you have a money back guarantee?](#)

How soon will I receive my software?

If you order a CD-ROM, you can expect to receive it within 5-7 business days. If you purchase via download, the product is immediately available to you when the download process is completed. Note that you can also download when ordering a CD-ROM.

[< Back to FAQs](#)

How long will it take to download?

Download times will differ depending on Internet connection speed and other factors. Typically downloads via "high-speed" connections take 1-3 minutes. Downloads via dial-up are usually much slower and can take 20-40 minutes depending upon the connection speed.

[< Back to FAQs](#)

Can I download again if I need to reinstall my software?

Yes. Just visit our Downloads section, select Download My Order and after installing use your registration number for full access. If you have lost this number, please email sales@slateboard.com with as much information as possible for us to identify your order and we will send you your code.

[< Back to FAQs](#)

I have additional questions about downloading...

For a detailed explanation on how to download, please visit our [How to Download Software Over the Internet](#) page.

[< Back to FAQs](#)

How do I update my data from a prior version?

If you install on the same machine as your old version, simply run and register your new software. Once successfully set up, go to the File Menu and select the Upgrade My X Database menu item where X is the version number. Only versions you have installed will be displayed. Once selected, your data will be transferred to the new version.

[< Back to FAQs](#)

How do I get help or technical support?

Most questions can be answered by reading the online help or QuikStart guides available from the Help menu in your software. If your answer cannot be found there, email support is free for as long as you use your software. Send your question to support@slateboard.com.

[< Back to FAQs](#)

Where can I find information or purchase the Canadian version?

All of our software is compatible with Canadian style mortgages and loans. When creating a Canadian mortgage, simply select a Compounding method of Canadian. Note that all prices on this site are in US\$ unless otherwise noted.

[< Back to FAQs](#)

Do you have a money back guarantee?

QuikCalc is quick and easy to learn and is already in use by thousands of individuals and professionals across the United States and the world. We've been in business for over 10 years and offer a 60 day money back guarantee on all of our software so there is no risk to you! For more details on our money back guarantee, [click here](#).

Compare the Competition

[Click Here to Collapse](#)

[> Try the demo now!](#)

Ten Reasons Why QuikCalc Home Beats the Competition!	
1	Convenience Unlike free web-based calculators, it is always on your desktop, ready to go. No searching, no downed servers, no clogged internet connections.
2	Privacy No worries about someone tracking you or your activity while doing your personal financial calculations.
3	Speed No waiting for the server or your internet connection. QuikCalc is as fast as your computer.
4	No Back Buttons Every time you want to do a new calculation, you don't have to use your back button which sometimes doesn't reload properly.
5	No Multiple Sessions On a web calculator you must open a new page for each calculation, in QuikCalc you can have any number open in one program.
6	Amortization Schedules Most free calculators only allow you to enter a few numbers then hit a button to get an answer, they aren't schedules.
7	Flexibility Most online calculators don't allow you to change the interest compounding or do accelerated payments. Especially important for Canadians.
8	User Friendly Unlike clumsy web interfaces, get all of the advantages of the Windows operating system interface.
9	Upgrades For 30 days try out QuikCalc Plus! for free. If you like it, upgrade for the difference.
10	No Risk! We have a 60 day money back guarantee! If you are not completely satisfied, you get your money back. No hassles, no forms, no restocking fees, no risk!
